

THE LEADER IN LOAD SECUREMENT

INTRODUCES THE NEW

ANCRA **BEAM RACK**

PATENTED

The Ancra Beam Rack is designed to allow for quick and easy storage of beams in your trailer. These patented beam holders fit easily into your existing logistics posts to provide a secure method of raising your beams up and out of the way when not in use. The unique design lets you lock in up to 6 beams per set horizontally in your trailer.

PN: 50410-12

EASY TO USE

- 1) Install **BEAM RACK** brackets, aligned with each other and 8ft. apart, into trailer logistics posts with UP arrow pointing up and tabs inserted into logistics posts slots. Lower tab can be adjusted if needed to fit into logistics posts with unique slot spacing.
- 2) Turn thumb screws, top one first to lock **BEAM RACK** bracket in place then turn the lower one to eliminate rattles.
- 3) Install up to 6 Beams into **BEAM RACK** to store them against the trailer wall.
